(54) Title: FIREBLOCKING DEVICE

(57) **Abstract:** Fireblocking device for preventing transfert of fire through ventilating apertures or similar passages, in openings for thermal fire ventilation, in ventilation ducts, in process plants or in vented facade exteriors, in vented fire blankets, vented fire protective curtans or vented protective screen against explosions. It comprises the combination of a heat absorbing and heat storing body (13), and an element (12), which includes and/or adsorbs and intumescent material.
